

[illegible]

to : is to what you
want end list

The screenshot shows a Windows 7 desktop with a blue background. On the desktop are two icons: 'from.txt' and 'to.txt', both represented by a notepad and pencil icon. A Visual Studio 2013 window is open, showing a C# program in 'DownloadHelper.cs'. The program reads a file named 'from.txt' from the desktop and prints its contents. A yellow line connects the file path 'C:\Users\Mohamed Slama\Desktop\from.txt' in the code to the 'from.txt' icon on the desktop. A Notepad++ window is also open, showing the contents of 'from.txt', which is a list of URLs. The status bar at the bottom of the Visual Studio window indicates 'Normal text file', 'length: 21011 lines: 22', 'Ln: 1 Col: 1 Sel: 0:0', 'Dos/Windows', 'UTF-8', and 'INS'.
